■ Summary of Benefits

Professional Liability

Protection afforded to the professional from damages and expenses (such as attorneys' fees and court costs) arising out of the negligent acts errors, or omissions of the professional, the professional's employees, or others for whom the professional is responsible.

Coverage for specialists in various professional fields. Since basic liability policies do not protect against situations arising out of business or professional pursuits, professional liability insurance is purchased by individuals who hold themselves out to the general public as having greater than average expertise in particular areas.

General Liability

Broad form insurance policy providing protection to the policy holder against all liability exposure except that which is specifically excluded from coverage under the policy.

Coverage for an insured when negligent acts and/or omissions result in bodily injury and/or property damage on the premises of a business, when someone is injured as the result of using the product manufactured or distributed by a business, or when someone is injured in the general operation of a business.
